PRASHANT KUMAR JHA

SENIOR JAVA BACKEND ENGINEER | TECHNICAL LEAD | MICROSERVICES | AI AGENTS / MCP

Bengaluru, India (Open to International Relocation & Remote Roles) | +91 7749994892 | jprashant2026@gmail.com

LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Implementation-focused Senior Java Engineer and Technical Lead with **8+ years** delivering **Spring Boot microservices**, **REST APIs** and event-driven platforms across retail, banking, mobility and enterprise CI/CD. Production expertise in Java 21, **AI agents**, **MCP** and tool calling; React exposure limited to internal POCs/prototypes. Led teams of 8 at Lowe's and 10 at IBM. Reduced API p99 latency from 8 seconds to 170 ms for services supporting 1,621 stores.

TECHNICAL SKILLS

Languages & Frontend: **Java 21 (production)**, Java 17, Java 8, **React (**internal tools, POCs and prototypes only**)**

Backend: **Spring Boot**, Spring, Hibernate, **REST APIs**, **Microservices**, **Distributed Systems**, Event-Driven Architecture, API Design, Concurrency

Data & Messaging: **Kafka**, **Redis**, MQTT, **PostgreSQL**, Elasticsearch, MongoDB, MySQL, Oracle

Cloud & Delivery: **Azure methodologies**, **Kubernetes**, **Docker**, AWS S3, **CI/CD**, Argo CD, Argo Workflows, Maven, Git

Quality & AI: JUnit 5, BDD, JaCoCo, SonarQube, Snyk, Prometheus, Grafana, Kibana, Copilot, **AI agents**, **MCP**, **tool/function calling**, prompt workflows; **LLM APIs (POC)**; **RAG/embeddings**

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Lowe's India | Bengaluru | Jan 2025 – Present

Estate Management Platform (Tachyon Wiz and Nimbus) | Java, Spring Boot, REST, Kafka, Redis, PostgreSQL, Elasticsearch, MQTT, Azure

- Mentored **8 engineers**, guided architecture and code reviews, and delivered **30+ REST APIs** and microservices.
- Architected fault-tolerant PostgreSQL-backed store-edge services supporting localized operations across **1,621 retail stores**.
- Reduced inventory and lookup API p99 latency from **8 seconds to 170 ms (~98%)** using distributed Redis caching.
- Supported on-call incident response during BFCM; the retail platform processed **2.3 million transactions** across the full event.
- Raised automated test coverage from **46% to 80% (+34 percentage points)** using JUnit5,Jacoco and BDD; cut deployment duration from **6–7 minutes to 2 minutes** using PerfX with k6 tool and SonarQube quality gates.
- Built Kafka/Redis/Elasticsearch ingestion for MQTT store telemetry and secure device-login and secret-creation workflows adopted as the client standard.
- Led **SNYK** remediation across Java, Python and npm applications with Generative AI assistance along with Mcp configuration
- Built Grafana, Kibana and Prometheus monitoring dashboards.

Senior Software Engineer (Technical Lead) | IBM India | Jul 2023 – Dec 2024

Enterprise CI/CD Platform & Centralized Control Plane | Java 17, Spring Boot, Kubernetes, Kafka, Argo CD, Argo Workflows

- Led **10 engineers** delivering a Kubernetes-based CI/CD control plane with Java 17 and Spring Boot, reducing reliance on third-party tooling.
- Designed Kafka and Argo Workflows orchestration for distributed deployment pipelines; introduced Argo CD automation.
- Resolved complex pre-production and production incidents across enterprise deployment environments.

Senior Software Engineer | HCLTech | Oct 2021 – Jul 2023

Mobility Marketplace and DeepSite | Java 8, Spring Boot, Hibernate, MySQL, AWS S3, JUnit 5

- Developed REST microservices integrating APIs, business data, hardware and services for a digital mobility marketplace.
- Integrated AWS S3 asset storage; improved automated tests with JUnit 5 and JaCoCo; resolved system-test and UAT defects.

Software Engineer / Associate Software Engineer | CGI | Nov 2018 – Oct 2021

CGI Trade 360 | Java 7, Spring Boot, Hibernate, Oracle 12c, REST Web Services

- Enhanced CGI Trade 360 international banking transaction-processing workflows, Hibernate/Oracle-backed services and trade business rules; resolved QA, UAT and production defects.

Associate Java Developer | STIXIS | Mar 2018 – Aug 2018

- Built a customer-facing B2B portal from scratch, including custom form classes and core application functionality.

EDUCATION

B.Tech, Computer Science Engineering | College of Engineering Bhubaneswar (BPUT)

CERTIFICATIONS & RECOGNITION

Career Essentials in Generative AI — Microsoft & LinkedIn | SAFe 5 Certification — Scaled Agile | HPE Certified Java Developer

Raise the Roof Award — Lowe’s India (Jan 2026, Mar 2026) | Team Excellence Award — Lowe’s India (Feb 2026) | Key Contributor Award — CGI (2020, 2021)
